

Tree Branch Pickup Notes

Copy your own provider's rules before you cut, bundle, or set out branches

CHECK THE HAZARDS FIRST

If a branch touches a power line, lies near a downed wire, or hangs overhead, stay back and call the utility or a qualified tree professional.

Don't move suspect wood out of a quarantine area.

YOUR PROVIDER

City, county, hauler, or drop-off site _____ Date checked _____

Phone or web page _____

Service area or residency rule _____

BRANCH AND PILE LIMITS

Maximum branch length _____ Maximum branch diameter _____

Maximum bundle size or weight _____ Maximum pile size _____

Number of bundles or containers _____ Container or approved tie material _____

COLLECTION OR DROP-OFF RULES

☐ Pickup is included

☐ Booking is required

☐ Drop-off is available

Booking method or confirmation _____ Fee _____

Collection day and set-out window _____

Curb placement _____ Covered-load rule _____

Accepted materials and excluded items

Special directions for diseased, pest-infested, treated, painted, or storm debris

Leave every limit blank until your provider gives you the rule. Another city's length, bundle, bag, and timing requirements may not apply where you live.
